McClymonds High School

S.T.E.A.M. Pathways

McClymonds High School students will create a personalized STEAM pathway to actively contribute and advocate for their local communities. McClymonds and its partners will use self-discovery, responsibility, accountability, and commitment to build a network of empowered graduates that make positive change through college and career readiness. Students will demonstrate completion of A-G requirements, community service, service learning, and student voice, ultimately elevating West Oakland.

“We know that if a subject interests a student, education happens,” said Barbara McAllister, Director of Intel’s Diversity in Technology Fund. “It’s our job to make technology interesting. We believe hands-on, project-based learning in the classroom and exposure to Intel role models and mentors will make a huge difference.”

MCCLYMONDS ENGINEERING PATHWAY

10th Grade - Introduction to Engineering and Design

11th Grade - Principles of Engineering

12th Grade - Civil Engineering and Architecture

HOW TO ENROLL

Students must enroll by spring of 9th grade. Pathway Enrollment period: mid-December to mid-January (pending) Find out more: www.ousd.org/linkedlearning

OUSD and Intel are partnering to build a transformational solution that aligns education with the needs of 21st-century workers and citizens. Through computer science and engineering pathways, hundreds of OUSD students will have the opportunity to reach their full potential and help create a better future for all of us.
